Arbitration

A significant part of Rupert's property and commercial practices, both in England and the Middle East, is in arbitration, both as lead counsel and as arbitrator, in particular under the LCIA, ICC, DIFC-LCIA, DIAC and LMAA Rules and seated in London, Paris and the Middle East. He is a member of both the DIAC Rules Task Force and the DIFC Court's Arbitration Working Group and in 2023 was appointed as a member of the Court of DIAC.

Chambers Global 2023 puts Rupert in its Band 1 for Dispute Resolution: The English Bar in the United Arab Emirates, noting in particular that '*London-based barrister Rupert Reed KC acts on a variety of commercial disputes in the DIFC Courts and remains very active as arbitrator in various arbitration centres...*'.

Chambers Global 2021 included Rupert in its 'Spotlight Table' of members of the UK Bar active in dispute resolution in the UAE, noting that he "*acts on a variety of commercial disputes in the DIFC Courts and remains very active as arbitrator in DIAC and DIFC-LCIA arbitration centres*". Much of his work as an advocate before the DIFC and English Courts is in obtaining interim relief, including freezing and related injunctive relief in support of arbitral proceedings.

Early in his career he assisted in the long-running arbitral claims in *Bankers Trust v City of Moscow*, arising from the Respondent's failure to repay loans of some 200m Swiss francs.

More recently, he acted in the long-running DIAC arbitration between the Meydan Group and the Dubai branch of WCT Berhad in respect of contractor claims arising from the construction of the Meydan race-course and leisure complex in Nad al Sheba in Dubai, and in proceedings in the DIFC Court in resiting recognition and enforcement of the award in the DIFC. He further acted as lead advocate at the evidentiary hearing of a major DIFC-LCIA arbitration in Dubai of debt and guarantee claims pursued by a Chinese group against a major Saudi conglomerate.

Rupert has a working knowledge of the Civil Codes of the Middle East derived from the Egyptian Civil Code of Professor Al Sanhoury. He has significant experience of working on the underlying texts and in particular the French *Code Civil* and *Al Waseet fi Sharh al Quanon al Madani al Jadid*, often with the assistance of experts from the UAE and other Arab jurisdictions.

He has advocated on issues of UAE law both in international arbitrations and, following the adoption by the DIFC Courts of the international approach of presenting issues of foreign law, in advancing submissions on UAE law, both in writing and orally, as for example in *WCT Berhad (Dubai Branch) v Meydan Group LLP* [2016] DIFC, ARB 003.

Rupert has also acted in relation to the conduit jurisdiction of the DIFC Courts used by successful claimants to enforce their awards and judgments first in the DIFC and then, pursuant to the reciprocal enforcement mechanisms between the DIFC and Dubai Courts, against property and assets in Dubai, as for example in *Bocimar International NV v Emirates Trading Agency LLC* (31 January 2016) CFI 008/2015 [2016].

More recently, he acted in obtaining a worldwide freezing order in the DIFC Courts in support of an award rendered in an LCIA India arbitration even before his client, the award creditor, had been able to apply for the recognition and enforcement in the DIFC of the award.

He regularly advises lawyers and clients in London as to the relative merits of their enforcement options in a number of jurisdictions in particular in the Gulf and wider Middle East.

Rupert was part of a working group that assisted the Chief Justice of the DIFC Courts in drafting a practice direction, Practice Direction No. 2 of 2015, which provides a model arbitration clause to allow parties to refer to DIFC-LCIA arbitration any issues arising on the enforcement of judgments by the DIFC Courts. This development has been the subject of widespread discussion among both academics and practitioners in the field of international arbitration.

He has been appointed and acted as sole arbitrator, co-arbitrator and Chairperson in a number of LCIA, DIFC-LCIA, DIAC, and ad hoc arbitrations in hearing financial, commercial and property disputes, often in the Middle East and involving issues of English, DIFC, UAE, Dubai and Saudi law.

Over the course of 2018 to 2021 he has served on the Tribunal in some 10 arbitrations (3 DIFC-LCIA, 4 DIAC, 3 LCIA and one 'ad hoc'). The value of many of the claims he has arbitrated significantly exceeds USD 100 million.
